

MCO Home Fan Coil Thermostat 4 pipe (black)

The MCOEMH8-FC4 thermostat is a device for room temperature control, equipped with Z-Wave wireless technology. It is destined for central control of a 4-pipe fan coil, which influences room climate by heating, cooling, humidity and dehumidity. The device can read room temperature and local time, and automatically control fan speed based on the temperature difference. The wall thermostat MCOEMH8-FC4 requires a static installation with mains power. Thanks to its modern design with capacitive glass touch panel it is particularly suited for visible installation in living areas.

Description

MCO Home Fan Coil Thermostat 4 pipe (black)

The **MCOEMH8-FC4** thermostat is a device for room temperature control, equipped with Z-Wave wireless technology. It is destined for central control of a 4-pipe fan coil, which influences room climate by heating, cooling, humidity and dehumidity. The device can read room temperature and local time, and automatically control fan speed based on the temperature difference. The wall thermostat MCOEMH8-FC4 requires a static installation with mains power. Thanks to its modern design with capacitive glass touch panel it is particularly suited for visible installation in living areas.

With the modern designed glass touch thermostats by MCO you can control various heating and cooling systems – e.g. heating cable, heating film, water valve, electrical valve, boiler, fan coil, solar energy controller, heat pump, ventilation system etc,

Features:

- Central control of 4-pipe fan coil
- Tempered glass panel (black) with capacitive buttons
- Clear display with basic control information
- Cooling, Heating and Ventilation modes
- Intelligent on/off control of 3-speed fan, and electric valve
- Flush mounted in 86x86mm junction box
- Wireless technologie: Z-Wave Plus

Compatibility list

Z-Wave Controller	Controller Revision	Compatibility status	Comment
Aeotec Smart Home Hub - Works as a SmartThings Hub - EU		<i>partly compatible</i>	no complete fan control
Aeotec Smart Home Hub - Works as a SmartThings Hub - UK		<i>partly compatible</i>	no complete fan control
Aeotec Z-Pi 7		<i>fully compatible</i>	
Aeotec Z-Stick 7		<i>fully compatible</i>	
FIBARO Home Center 3	5.070	<i>fully compatible</i>	
FIBARO Home Center 3 Lite	5.070	<i>fully compatible</i>	
homee Z-Wave Cube	2.18.1	<i>partly compatible</i>	no fan control available
RaZberry EU	3.2.2	<i>partly compatible</i>	no fan control available
VERA Control Ezlo Atom V2	1.7.3831	<i>partly compatible</i>	no complete fan control
Z-Wave.Me RaZberry 7 (PCB antenna)	3.2.2	<i>partly compatible</i>	no fan control available
Z-Wave.Me RaZberry 7 Pro (with external Antenna)	3.2.2	<i>partly compatible</i>	no fan control available
Z-Wave.Me UZB Smart Home Stick	3.2.2	<i>partly compatible</i>	no fan control available
Zipato Zipabox 2	2.0.4	<i>partly compatible</i>	no complete fan control
Zipato Zipatile 2	2.0.4	<i>partly compatible</i>	no complete fan control
